Located on Iguazú river, which represents the frontier between Argentina and Brazil, the waterfalls are made up of about 160 to 270 falls, depending on the volume of water the river carries. They are higher, bigger and more beautiful than the Niagara Falls in the United States and the Victoria Falls in Africa.

The travelers can also see the waterfalls from below. The track leads among begonias, orchids, ferns and palms and one can see toucans, parrots and swifts and myriad of butterflies of all colors.

During the excursions participants will board special boats that will take them, at high speed, to enjoy one of the most unforgettable experience in the region: the direct and wet contact with the mighty Iguassu Falls!
